

## About Us

McNeil Company is focused on providing superior Architectural services, comprehensive design-build solutions, Development, Construction, and Property Management. Our range of expertise includes over 300 custom residential designs and a vast range of commercial and Multi-Family projects. With over 40 years of design-build excellence, our portfolio, as well as our clientele, certifies our abilities and unequivocal success.

Our creative design department includes architects, designers, and AutoCAD operators and whose unique individual talents create inspiring spaces. We are seeking a self-motivated Architectural-Residential Designer to join our team, located in Omaha, NE.

McNeil Company supports personal and professional development in all aspects of our business. We appreciate flexibility, willingness to pitch in, and a good sense of humor. Honesty and self-awareness are essential. If you think you can add something special to our Design Team and our practice, we would love to hear from you!

## Responsibilities and Opportunities

We are representing a Design/Build firm who is looking to hire an Architectural-Residential Designer. Candidates should have excellent command and knowledge of AutoCAD, Sketch-Up and other graphics programs. The candidate should be capable of participating in the detailed designs and develop drawings to be used in bid and construction.

### Specific Tasks and Duties

- Assist in Architectural Interior Design working with Project Architects and clients to create detailed drawings for high end Custom Homes, Multi-Family and light Commercial design.
- Interior Designer / Architecture Specialist will aid in space planning, detailed design of cabinetry and millwork, specialty interior architectural features and aid in selection and specification documentation, with the opportunity to grow within the Design Team to the individual's potential.
- Enjoys a collaborative dynamic Architectural environment, with the opportunity to work directly with construction staff and outside Interior and Cabinet Designers to find the most appropriate materials for design and budget.
- Develop detailed designs, often using SketchUp or other 3D imaging software for better understanding by clientele.
- AutoCad required to assist in preparing drawing sets from conceptual design through overall construction documentation for Residential, Light Commercial and Multi-Family.
- Review of products, shop drawing submittals, including cabinetry, millwork and other specialty interior architectural details, during the construction phase.
- Periodic job site visits required to ensure proper execution of Architectural Documents and Specifications.

- Assist in organizing and maintaining project files. (electronic and/or paper)
- Proven ability to manage multiple projects and tasks in a fast pace environment who works well independently and as a skilled collaborator.
- Work under the supervision of dictated staff.
- Surveying existing properties
- Assist in the filing, organizing and maintain project files. (electronic and/or paper)
- Work under the supervision of a dictated staff.

## Minimum Requirements

- AutoCad is an absolute must. SketchUp and Photoshop are preferred.
- Creative ability with Interior Design & Architecture and Space Planning.
- Practical understanding of construction and construction documents.
- Exceptional client management and communication skills.
- Proven ability to manage and prioritize multiple projects in a fast pace environment.

We offer a competitive salary and benefits package, dynamic work environment with opportunities for growth and the ability to contribute significantly to the work we create.
